

Stylish, energy efficient vending solutions for the workplace

pure gold

Stylish business vending

Sophisticated cafe style refreshments for the workplace

High quality refreshments such as fresh bean to cup coffee, freshly brewed tea and chilled filtered water, are an ideal way to energise and refresh your workforce.

Serve coffee house quality and branded drinks

Forget the watery vended drinks of the past. Our office hot drink vending machines serve up creamy cappuccinos, punchy espressos, lattes, macchiatos, branded drinks, such as Nestle or Kenco and fair trade options.

As well as serving drinks in a choice of 9oz and 12oz vending cups, our machines let you serve drinks in your own cups or jugs, for that personal touch when visitors arrive, and you can adjust options such as drink strength or sugar to individual taste.

Installing a Westomatic vending machine in your office couldn't be simpler. Our machines are available through selected Machine Supply Partners. Your operator will provide you with a full service, from the supply of your machines through to stocking and servicing. So all you have to do is sit back and enjoy the coffee (when you're not working of course!).

- Compact footprints
- Packed with energy saving features
- Low running costs
- Corporate branding
- Full operator support and service
